QUALIFICATION DESCRIPTION

Sport Coaching Certificate II is a practical-based course where students gain the necessary knowledge, skills and attitude to work in the Sporting Industry.

The program is designed to create local entry-level employment opportunities for students in the local sport industry.

This program aims to:

- Provide avenues for social interaction, develop self-worth, leadership skills and promote community involvement through NRL and AFL
- Develop skill sets to meet industry, workplace requirements and sporting accreditation
- Build partnerships between football organisations, sporting bodies, local businesses, community and institutions
- Link opportunities for students through local football organisations

Our objective is to provide graduates with the necessary skills and knowledge that will empower them to successfully fulfill the demands of the workplace.

Training is delivered in stages that correspond to AQF levels. The desired pathway for a qualification is for students to complete the requirements of the previous level qualification before progressing to the next level – thereby achieving more than one qualification.
